**ABOUT THE CONFERENCE:**  
Crises refers to sudden unplanned events which cause major disturbances in the country and trigger a feeling of fear and threat amongst the citizens. The Indian economy started its journey in 1951 when the First Five Year Plan was launched. The first phase of development could be characterized as the 'decade of crisis' when the country faced the perils of partition and the consequent food crisis and foreign exchange crisis; Indian economy landed in a new crisis in post-liberalization period leading to economic difficulties followed by the experience of huge fiscal deficit. However, crisis and changes in economic policies is the peculiar feature of India at almost all the times.

**NOTE:**  
India is facing the story of an economy in distress, a banking system to paralyse consumers too worried about job cuts and rising costs to spend. In similar words crisis leads to uncertainty and causes major harm to the country and its citizens. The crises in India may be classified in to pre and post-independence period. It includes economic, social, environmental, community or any other type of crises arising due to political or social or regional imbalances. These crises may have multiple reasons but the efforts of every citizen have been providing remedies to overcome followed by the distress and relief to the country as a whole. However, we Indians took initiatives and found out where things went wrong, identify the problem areas and devise appropriate strategies to overcome the same. This Conference will bring together policymakers, leaders and academicians from domestic and

international indices, to evaluate us to how the crises had damaged the country and collective efforts initiated had, given a new dimension in trade, commerce and industry in this global era. The event will throw the spotlight on the series of crises in India in pre and post independence period, to restore and the sufferings remedied offered to avenge our socio national problems.
